

3D scatter plot showing the distribution of 8 clusters in a space defined by  $\lg H_{rd}$  (x-axis),  $\lg L_{um}$  (y-axis), and an unlabeled z-axis. The clusters are color-coded and labeled 1 through 8. The axes are labeled with values:  $\lg H_{rd}$  ranges from -0.5 to 1,  $\lg L_{um}$  ranges from 49 to 53, and the z-axis ranges from 0 to 1.
